soon you won't search. your agent will.

who does your agent trust?

agents are already shopping. they have nothing real to rank on.

THE DEMAND IS HERE

+393%

AI-referred traffic to US retail, year over year, Q1 2026

adobe · q1 2026

$3–5T

agentic commerce globally by 2030

mckinsey · oct 2025

TRUST IS THE BLOCKER

“trust will remain the number one barrier to agentic commerce deployment”

juniper research · apr 2026

payment rails already prove an agent *may* spend (AP2, ACP, Visa and Mastercard agent tokens). none proves the customer is real or the review is.

LOYALTY IS THE PRIZE, LOCKED IN SILOS

52.8%

of US hotel occupancy is loyalty members

cbre · 2024

675M+

memberships across the five largest US chains, not deduplicated: the same person, many walled programs, nothing portable.

cbre · 2024

BookerBob: rank and pay on proven customers, and let proof of loyalty travel.

HACKMERIDIAN 2026 · STELLAR · LISBON

BookerBob.

Google for agentic commerce.

meet Bob, an agent that only trusts zero-knowledge proofs.

applied zero-knowledge · Semaphore v4 · Poseidon · Groth16 on BN254 · verified on Stellar

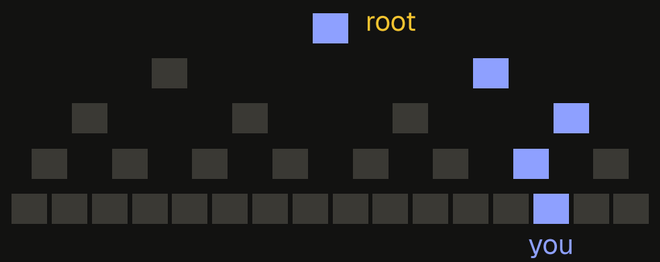

prove the fact. keep the identity.

one purchase, traced.

01 · YOUR DEVICE

prove you belong

your secret is one leaf in the store's Poseidon tree. you prove you are a leaf, not which one.

Semaphore v4 proof, about 0.3 to 1.5 s in a browser. only the proof leaves your device.

02 · STELLAR CONTRACT

check it on chain

- ✓ root is in this store's history
- ✓ nullifier never used
- ✓ Groth16 pairing on BN254: valid
- ✓ USDC paid in the same tx

native BN254 and Poseidon. the proof check is 7.8% of one transaction.

31.1M CPU of 400M · `tx fa5b8795…`

03 · WHAT THE STORE SEES

a verified customer paid

REP STORE · ORDER #1028

~~40.80 usdc~~

34.68 usdc

✓ verified returning customer

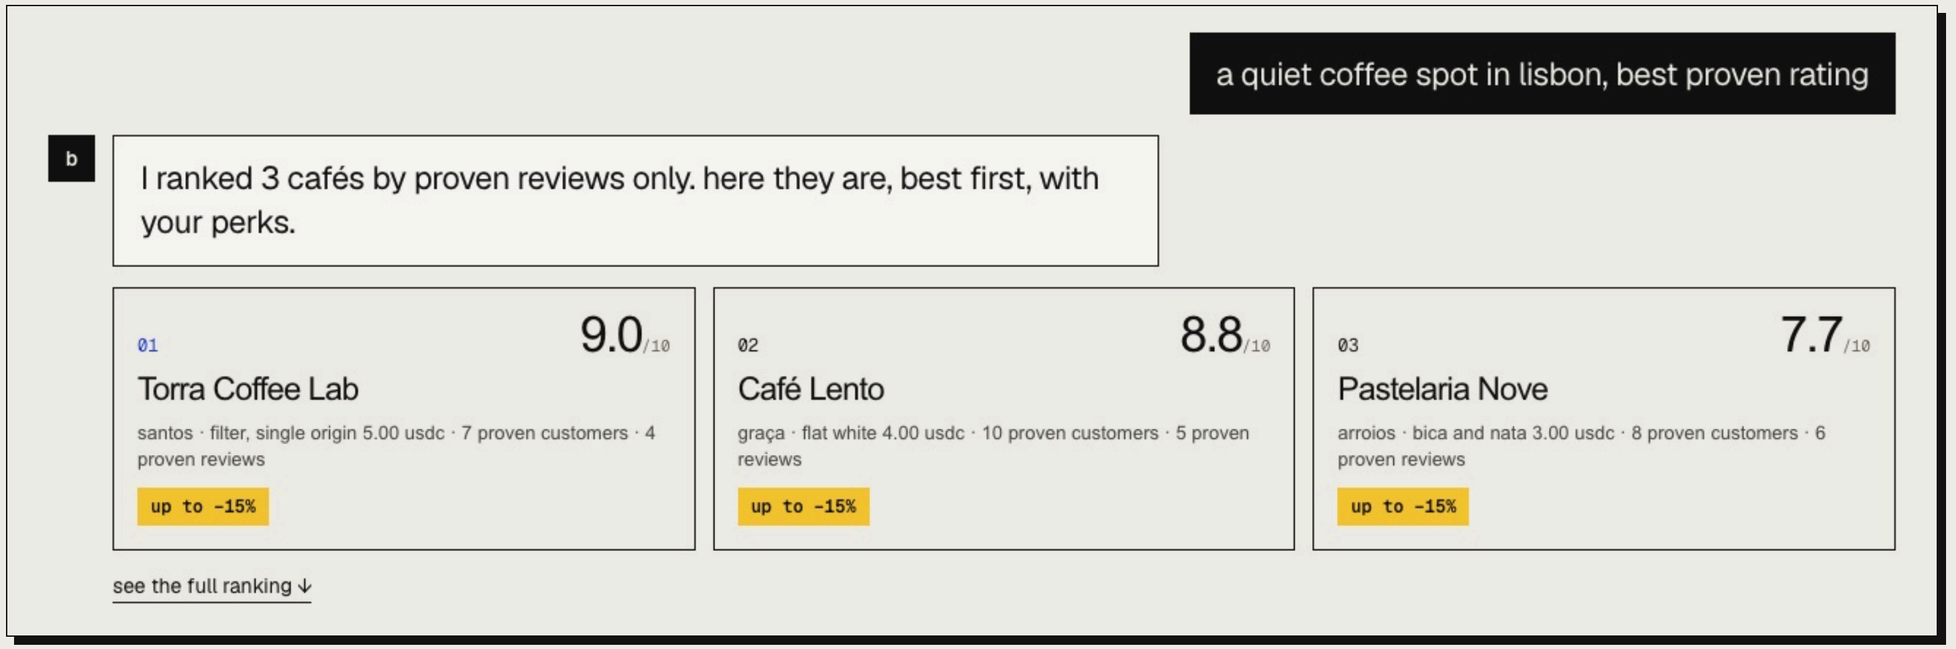

not who. not which past order.

✗ same proof again: refused, nullifier already spent.

Agents rank on zero-knowledge proofs, and add new ones every time they buy.

Ask Bob. Ranked by proofs only.

One journey, on chain.
